

Pick and Move Limited

PRE-MOVE HOUSE & BUSINESS SURVEY.

This will involve one of our trained pre-move surveyors visiting you at home at times that suit you. We will complete a comprehensive pre-move survey so that we can advise you of the most appropriate personal moving plan for you. From our extensive range of services you can choose exactly how much assistance you would like our team to provide and how much you would like to arrange yourself.

We then create a detailed tailor-made move plan, including exactly what you want moving and whether we'll need any special equipment or materials to move large or unusual items. We will advise you on the most appropriate route and method of moving your belongings, depending on your requirements. We will make sure that the removal of every single item in your home is included in the plan, even things tucked out of sight in loft spaces or cupboards.

If you need to move some items more urgently than others or to different addresses, such as baby equipment or computers for work, you may choose to do so. We will organise every detail of your removal so that everything you need will be ready when you arrive at your new home.

Because we agree all the details of your move with you in advance, you can be confident that we will provide you with a quality service in line with your budget and your expectations

We provide free help and advice, for more information and to arrange your move please contact us at our office on
